### Why Choose Steve Kodad's Program?

Because you don't just learn the "tools" of Feng Shui! You understand how things have evolved, and come away with an appreciation of why an environment "impacts" you so deeply. AND, most importantly, you learn how to make Feng Shui your vocation.

Becoming a Feng Shui practitioner is an exciting way of life. The information has been handed down for thousands of years and at one time was heavily guarded by the people in power. Steve Kodad makes sure all of his students leave with not only the necessary information, but with the tools needed to communicate and succeed in a career.

This five-day course will cover the evolution of this science and do it in a practical manner. The class is designed for a student who wants to begin or enhance a *career* as a Feng Shui consultant. The course has been created to present the student with the many ways a consultant can practice Feng Shui. It is based on helping participants develop specific areas where they can immediately begin being rewarded. A career in Feng Shui is not for everyone, but this course will show enthusiastic students ways to run a successful Feng Shui business.

It is my belief that learning happens for different individual in many ways, and this course has been set up to insure all learners can succeed. The classroom portion is taught using PowerPoint, and has hundreds of colorful pictures and diagrams. The three "field trips" will help tie in the many new ideas that are presented. After completion of the five initial days, a student is then asked to complete two (2) Feng Shui analyses and submit with photos for review. Upon successful completion, the student will be awarded a beautiful diploma perfect for framing.

A class can be designed for one individual or for a group. If the group is 3 or more, Steve will gladly schedule a week that is positive for all concerned and travel to your area. For groups of 1 or 2, the class will be held at Steve's home classroom outside Charlotte, North Carolina.
